FRI

Marble Maze: Session 3

Ages: 6 - 11 **Time:** 9:00am - 12:00pm
Price: Members \$50 / Non-Members \$65

SUMMER CAMPS 2025

Full class descriptions can be found by scanning QR code below or by visiting: childrensimaginarium.org/camps/

BioBrainiacs (4-Day)

Calling all young scientists! BioBrainiacs Camp offers a week of hands-on fun exploring biology—from plants and genetics to human biology and microbiology—through exciting experiments and activities that uncover the secrets of the living world.

Farm to Fork (4-Day)

Campers will explore the journey from Farm to Fork through gardening, pollinator-friendly projects, and a farmers market experience, all while learning how food grows and how to create their own mini gardens.

Imaginarium Explorers w/ Marathon Parks & Recreation (3-Week Duration)

Join us for a summer adventure where we team up with Marathon County Parks and Rec for outdoor exploration and hands-on discovery! Campers will dive into different themes of the day for exciting experiments and creative activities.

Marble Maze

Campers will design and build their own creative mazes using pizza boxes, then head to Polito's Pizza for a behind-the-scenes tour and a delicious lunch. It's a day of hands-on fun, problem-solving, and, of course, pizza!

Robot Racers

In Robot Racers, campers will design and build their own obstacle courses, then program Indi Robots and OzoBots to race through them. It's a hands-on, high-energy experience full of coding, engineering, and thrilling robot races!

Science of the Slide

Campers will explore the physics of curling, from how stones glide, to the impact of sweeping, with hands-on activities like 3D printing mini curling stones and creating a synthetic ice curling sheet, then team up for a mini curling competition!

Marshmallow Mania

Join us for a sweet and hands-on adventure where campers will engineer solar ovens, explore kinetic energy and chemical reactions, and enjoy a marshmallow-themed drink. It's a gooey, giggly, genius-filled experience!
